

NWG Sibling Discount

This Sibling Discount Policy outlines how discounts are applied for families with more than one child attending sessions. This policy should be read in conjunction with our Booking Terms & Conditions and applies only where a sibling discount is offered at the relevant venue.

1. Eligibility

- A sibling discount may be available where two or more children from the same immediate family are enrolled and attending sessions concurrently.
- Siblings must reside at the same address and be linked under the same parent or carer account.
- Discounts apply to the standard monthly membership fee only and cannot be combined with other promotions unless explicitly stated.

2. Discount Structure

Where sibling discounts are available, they are applied on a tiered basis, meaning the level of discount increases with each additional child enrolled.

The exact discount structure is dependent on the individual venue. To confirm the specific percentages applicable to your location, please contact your local club directly, and they will be happy to advise.

3. Venue-Specific Discount

Sibling discounts are venue-specific and may differ between locations. Discounts (if offered) will apply only to the venue at which the gymnasts are registered.

The following venues currently operate individual sibling discount structures:

- Leeds
- Rotherham
- Mansfield
- Coventry

Discount details for each venue will be made available upon enquiry or confirmed during the membership sign-up process.

4. Application of Discount

- Sibling discounts must be requested at the point of sign-up and cannot be applied retrospectively.
- It is the responsibility of the parent or carer to ensure all siblings are correctly linked on the same account.
- If a sibling leaves the club or their membership ends, the discount may be reviewed or removed.

5. Changes & Withdrawal

- We reserve the right to amend, withdraw, or discontinue sibling discounts at any time by providing reasonable written notice.
- Any changes to sibling discounts will not affect discounts already applied for the current billing period.

6. Misuse of Discount

- If we reasonably believe that a sibling discount has been applied incorrectly or based on inaccurate information, we reserve the right to remove the discount and recover any underpaid fees.

7. Policy Review

- This policy may be reviewed and updated periodically to reflect operational or venue-specific changes.
